Dear Mr. Mahalingam,

Good Morning!

I really appreciate the idea and commitment in conducting such courses. I should agree that doctors besides being clinicians must undergo training on quality, hospital management, etc . The course content and time scheduling was very good. Integrating project work has really added value.

Once again appreciate and complement that I and my colleagues have been benefited. Please do keep us updated about other programmes for us to enroll

Many thanks Mr. Mahalingam.

We enjoyed the course very much.

All in all, excellent and would recommend to others.

Thank you.

Dear Mahalingam Sir,

My sincere appreciation and gratitude to you, Sir, for all your efforts in making the program as successful as it was. Effective communication is not easy, but you have managed it so well with not just me, but with our whole group. Never once during the entire course of study did I have to send you any reminder or query. It was all well answered even before a doubt could develop in our minds! The course content was also extremely well structured. It was a privilege for me to be able to listen to and learn from stalwarts in the quality field. A special word of appreciation for your organizing skills in arranging the sessions without any delay or interruption, every Saturday, at the pre-planned hours, without fail, throughout the course duration.

The course is over, but I cherish our friendship and hope it will last a life time. Thanking you

Note : Dear Mahali Sir,

Enjoyed listening to Subramanian Sir. He is so crystal clear in his approach and there is an uninterrupted flow of thoughts... I didn't take a single pause between the session.... Hardly realised that more than an hour and half went by... Great personality indeed !

Yours Sincerely

Ms.Sandhya Mahadevan
