Guidelines for online / e-learning:

1. All registered candidates should provide a valid email address to enable mailing of all course related communication and links.

2. The web link for the day's online class would be provided 1/2 hour before commencement of the class.

3. Participants are requested to confirm their presence by opening the link and marking their attendance in the 'chat window' by filling in their name and registration number.

4. A demo class would be conducted for the entire batch of registered students before the actual course commencement to serve as a 'trial run' and clarify their doubts before the main session begins.

5. Hardware/software requirements for registered participants – A good desktop / laptop with speakers/Head set and broadband connection.

6. The SN Academy would provide 'on demand video service' for those who wish to have a repeat session of a particular session, the service would however be live only for 24 hours.

7. Students may post their doubts/queries on the day's session in the 'chat window' the same would be answered by the faculty in the last ½ hour of the class.

8. The Module Assessments and project review of the participants would be conducted online by the respective Faculty
